# WHO WE ARE

We are operators, innovators, engineers, and above all, a family. Garage born in Bellingham, Washington, we got out footing in this industry by building attachments that got OUR jobs done. We believed in quality and versatility from the beginning, and knew how much more gets done when machine operators are not worried about something falling apart. We enjoy pushing the boundaries, not cutting the costs and quality. Our pride comes neither from profits nor volumes, but satisfied customers who got the job done - the right way - the first time. **Welcome to Eterra.**

This catalog is designed to get you up to date on our latest products going into 2020. We want to make sure that you have the right tools for your upcoming projects. For all pricing quotes and general inquiries, please contact us or your local dealer and a product expert will be able to assist you.

# VORTEX

BY ETERRA

*Impressively powerful while still incredibly efficient, the Vortex delivers reliable results.*

**ETERRA**  
VORTEX

eterra-usa.com • sales@eterraattachments.com • 360.203.7730

A red skid steer loader is positioned in a dark forest at night. It is equipped with a flamethrower attachment that is firing a large, intense flame upwards, creating a massive plume of fire and smoke. The scene is dramatically lit by the fire, with the loader's red body and the bright orange and yellow flames being the primary light sources against the dark background of trees.

**WE ARE OPERATORS, INNOVATORS,  
AND GAME CHANGERS.**

**PRESENTING THE ETERRA RAPTOR FLAMETHROWER**  
**THE WORLD'S FIRST SKID STEER MOUNTED FLAMETHROWER**

This product is not available for sale. This product was designed for experimental and promotional uses only. Eterra believes in innovation and safety and does not endorse dangerous or irresponsible behavior to any degree. It is Eterra's mission to design and deliver the highest quality and most efficient equipment to its valued customers

# VORTEX

BY ETERRA

**Eterra's new Vortex Stump Grinder is a state-of-the-art tool with a high torque output radial piston motor, combined with a robust direct drive system and an aggressive wheel for increased power and cutting capacity.**

VM27 | VM31

The Vortex Stump Grinder was designed and manufactured by Eterra in the USA to increase stump grinding efficiencies... Simply put, Eterra is tired of the commonly poorly designed, underpowered, and cheap stump grinders.

The Vortex's direct drive system is overbuilt, reliable and easy to maintain. It was designed in conjunction with the radial piston motor and the aggressive heavy duty wheel with the goal to never let you down.

# SICKLE BAR

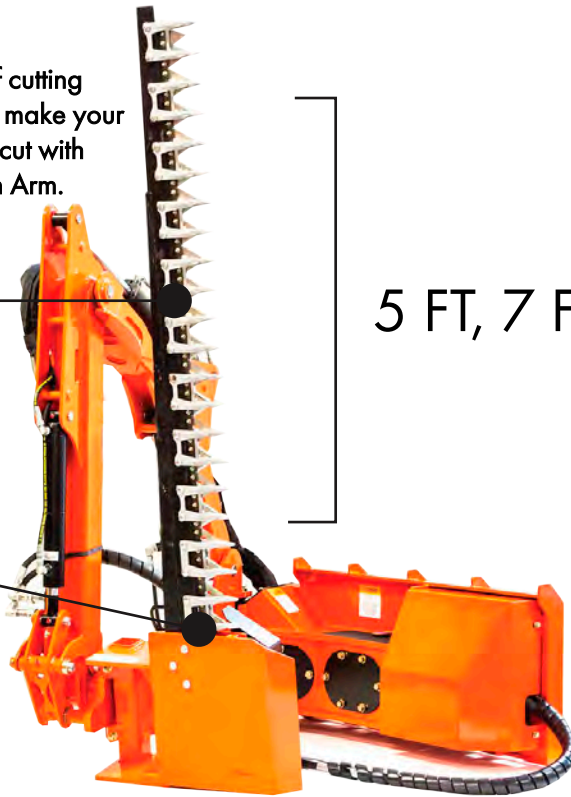

\* SICKLE BAR CUTTER  
BOOM MOWER APPLICATION SHOWN

Experience superior reach and versatility for next-level roadside clearing with a Sickle Bar cutter. 150 degrees of cutting angle adjustment, including 45 degrees below grade will make your operation more nimble. Almost everything you wanted to cut with your Skid Steer is now in reach thanks to the Raptor Boom Arm.

# CYCLONE

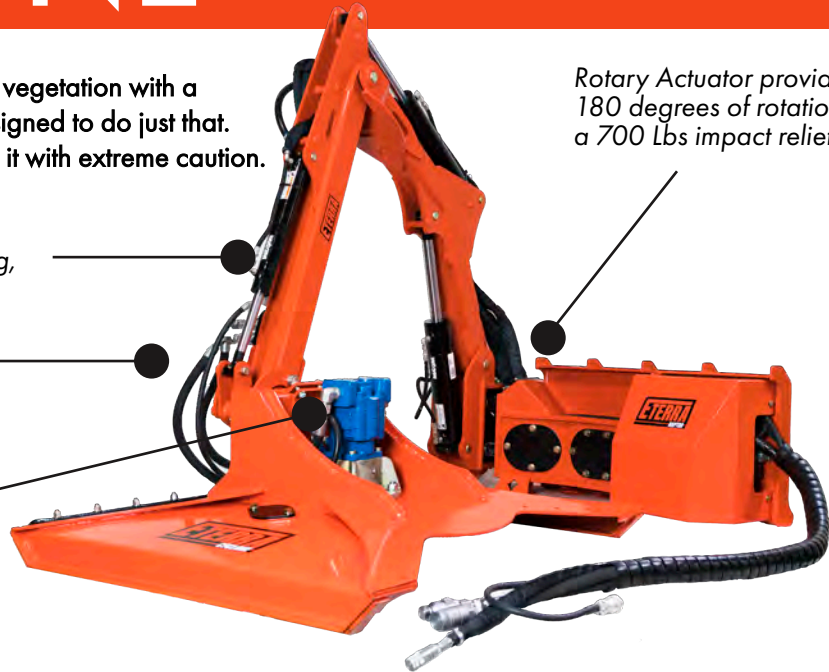

\* ROTARY MOWER HEAD  
BOOM MOWER APPLICATION SHOWN

If clearing large material and removing the most vegetation with a single pass is what's required, the Cyclone is designed to do just that. Just a reminder, this is an open face cutter so use it with extreme caution.

Intelligent hose routing. Hoses and fittings are designed to reduce heat and keep you operating, not fixing hoses.

Interchange mower heads with Eterra's tube clamp system.

A wide motor selection makes it easy for you to select the best for your machine and line of work.

Rotary Actuator provides 180 degrees of rotation and a 700 Lbs impact relief protection

## THE CYCLONE 48" ROTARY IS YOUR RAPTOR'S HEAVY MATERIAL MOWER HEAD

48"

USE WITH

MODEL	48"	60" Not Raptor Compatible

# SIDEWINDER

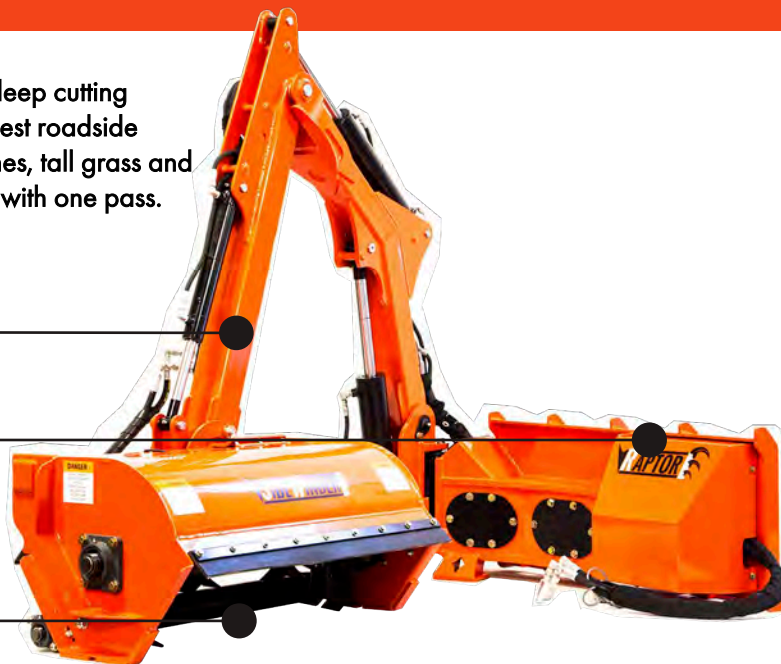

\* FLAIL MOWER  
BOOM MOWER APPLICATION SHOWN

A popular addition to the Raptor, the open-face and deep cutting design of this flail mower combines to tackle the toughest roadside applications. The Sidewinder mulches blackberry bushes, tall grass and brambles with ease so you can expect a perfect finish with one pass.

Full range of motion  
to right side of machine

Adjustable  
control valve block

Roller provides an even  
cut and smooth operation

## THE SIDEWINDER 36" FLAIL IS YOUR RAPTOR'S LIGHT MATERIAL, BRUSH & GRASS MOWER

Besides roadways, you can  
clear paths, atv trails,  
fence lines and acreages.

# CYCLONE

\* ROTARY MOWER  
EXCAVATOR APPLICATION SHOWN

The Cyclone is as sleek as it is stout. Gussets and the unique housing design maximize every strength desired by an excavator operator. To us, it's a powerful piece of art.

This mower **"Spins Up" FAST!**

Ensuring the operator doesn't get bogged down in heavy material, the Cyclone uses a 2-blade system. This proprietary blade carrier design ensures maximum tip speed and minimal energy loss from blade bar impacts on brush and trees.

12 LB Dual Edged Blades

Many available mounting options for excavators or boom systems

## Mount your Cyclone to your Excavator

48"

60"

# SIDEWINDER

\* FLAIL MOWER  
MINI SKID STEER APPLICATION SHOWN

The Sidewinder flail brush mower is built for your Mini Skid Steer as well as custom boom applications. The open-face and deep cutting design combine to tackle the toughest material that a Mini Skid Steer can face. Our customers have said: "mini skid steers aren't powerful enough for a mulcher attachment, so this is by far the next best thing!".

Grade 50 structural  
steel frame housing

Precision balanced  
drive system and  
1 LB free hanging blades

Roller provides an even  
cut and smooth operation

## MINI SS PLATES

Mini Universal, Bobcat MT,  
ASV/TEREX PT-RC-30, New Holland  
(Fit is not guaranteed, please contact us first)

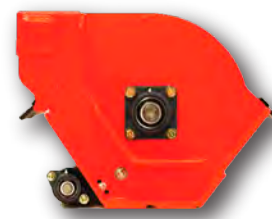

USE WITH

Add any mini skid steer plate  
or use out tube mount system  
for boom mount applications

**DOZER-GRADER | AVAILABLE NOW**

[illegible]

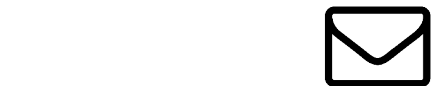

We don't just make great attachments, we use them too. We're family-owned and operated and just like that, we build attachments we own and operate. The quick story is we are based in Washington State where most of our products are manufactured or assembled.

***Rest assured that our attachments are built by operators, for operators.***

This catalog is designed to get you up to date on our latest products going into 2020. We want to make sure that you have the right tools for your upcoming projects. For all quotes, pricing and general inquiries, please contact our sales line or your preferred local dealer.
